

Active Genocide and Politicide In Northern Ethiopia, Tigray Regional State

By Tigrayn-Americans in Seattle

Seattle, Washington

November 6, 2020

Too little attention is being given to the widespread ethnic based killing since the takeover of the illegitimate PM. Abiy Ahmed of Ethiopia orchestrated by an illegal extension of his rule suspending the election, which was a serious constitutional breach. Abiy launched two years ago (medemer) as a new weapon in place of the Federal System of Nations, Nationalities, and peoples, which has given him a new license to destroy the constitutional order and the rule of law. Ethiopians Nations and Nationalities must be brace up as one united body for a fight to destroy a regime that has made assassinations as its political mainstay and ploy.

The former spy/Ex. PM working hands in gloves with the Eritrean dictator, with a small clique of chauvinistic circles that are impulsive have staged on with impudence and ignorance by destabilizing Ethiopia laying the groundwork for Balkanization of Ethiopia in to fragmented enclaves. Abiy is a threat to the national interest of Ethiopia as a country with its economy which is in free fall.

The plight of Ethiopian Tigreans and opposition parties in the current Ethiopian situation has fallen on deaf ears with the international community. On the 4th November 2020, the illegitimate Prime Minister whose mandate expired on 6th October , 2020 and the rubber stamp parliament/staunch members of the so called prosperity party announced that they ordered the Ethiopian National Defense Forces (ENDF) to launch a military operation in the Tigray region. Following Abiy Ahmed's decision and order an all-out military operation with fighter jets, tanks and artillery are pounding the region, whose consequences are hard to fathom for the poor people of the country. What makes this targeted genocidal operation worse is that an external actor in the name of Isaias Afewerki (president of Eritrea and dictator since 1990) is involved in a ploy to annihilate the people of Tigray.

After two years of economic blockage and budget cut and purging Tigreans from federal and regional positions by confiscating personal properties of Tigreans ,the decision to send the military not only signals an escalation to subdue people and federal order, but the ex PM plunges Ethiopia from one disaster into another by trying to disintegrate the country and create animosity between the different ethnic groups. He puts many lives at risk and threatens a downward spiral in violation of human rights in Ethiopia which by now many Ethiopians are accustomed since his reign of terror. The unfounded allegation towards the state of Tigray with his blind supporters spreading falsehood on social media, the communities, and governments

across the world must be aware and vigilant to stop listening from a failed and psychopathic tyrant under the cover of Nobel Peace Winner.

We call on the authorities in Ethiopia, to stop the unlawful act of this mad man, in particular the defense forces both on federal and regional levels and to protect the lives of innocent Tigreans and ensure that international human rights law must be respected.

We call upon Ethiopians and the world communities and human right organizations to adhere to the principles of human rights and cease the genocidal act declared by Abiy and his puppet parliament so that a peaceful transition of government with all opposition groups with a stake are guaranteed for the continuity of our country and safety of our people. We also call on all to immediately restore telephone and internet communications in Tigray to allow people to communicate with one another in accordance with the right to freedom to expression, and to enable monitoring of the human rights situation in Ethiopia.

We the Tigrean Community in Seattle strongly denounce the declaration of the so-called Federal Council of Ministers State of Emergency in the Tigray Region and the attack against the people of Tigray. The constitution must be restored and the rights of all nations and nationalities in Ethiopia should be respected.

Victory to all our people!

Human rights and the constitution should be respected!

Stop the war!
